This is hilarious.

It is an on rails shooter that with some "amazing" voice acting.

The game is seriously fun to play for a while. Not sure if it is still good on hour 2 though.

<https://youtu.be/VKqIO7Br1siM>. A true masterpiece of that time, they did a great job: throwing out unfun parts of Cyberia and improving what was really fun: FMV-shooting. I think FMV-graphics got much better.
